

Excellence in K-12 Education

- **Increase transparency in measuring accomplishments and student progress, specifically to include benchmarks for measuring success.**
- **Provide resources and a pathway for better teacher compensation.**
- **Streamline the process for charter school authorization.**
- **Improve student access to transportation.**
- **Better utilize alternative certification to fill teacher vacancies.**
- **Conduct a full audit of West Virginia's K-12 public education system with an eye towards improving efficiency and reducing administrative costs.**
- **Allow more calendar flexibility and virtual learning.**
- **Undertake a thorough examination and revision of Chapters 18 and 18A of the West Virginia Code.**
- **Work with teachers, psychologists and concerned parties to ensure safe schools and improve student behavior.**
- **Better align higher education institutions to assist the school systems in improving leadership skills, enhance teacher opportunities and tackle health and conduct issues.**
- **Improve the foster care system to equip West Virginia's children for a successful academic outcome.**
- **Allow counties more flexibility in teacher pay to ensure they can compete with border counties.**
