

Support Economic Development and Energy

- **Expand West Virginia's site-readiness program.**
- **Move to create public-private development efforts.**
- **Create additional capacity within community and regional development departments.**
- **Coordinate economic development programs across the state to enhance and focus efforts.**
- **Expand access to capital.**
- **Send a clear message that West Virginia has an "all-of-the-above" energy approach.**
- **Support coal and natural gas derivative products.**
- **Promote natural gas as a powerhouse for West Virginia in the energy sector; favorable laws and regulations for all energy sectors are a must.**
- **Incorporate renewables as an important addition to our diversified economy.**
